**PRESENTATION**

Emily Spence, HEZ Coordinator re Summer Camp

Prior to the commencement of this evening's regular agenda, the Council heard from Emily Spence regarding a Summer Camp initiative which will take place on the Town Common. She noted that the camp will be co-sponsored by the Mt. Hope Church, the South Coast Community Church and the Health Equity Zone (HEZ) program.

Ms. Spence noted that the camp will take place in August and will feature a week-long program of activities. She added that the camp is designed to help children make good choices and that she hopes to include the Fire and Police Departments.

She introduced camp volunteers Dayona Clemens and Sean Smith.

The Council also heard from Rev. Smith, pastor of the South Coast Community Church who explained that he learned that children playing in the vicinity of the Town Common have been solicited by drug dealers which is of great concern to him. Pastor Smith also explained that this camp is not intended to be a Christian Bible study group and that it is not religious oriented but rather that the group wishes to "team up with the community" to offer a meaningful program for families.

Ms. Spence explained that there will be 25 volunteers supervising 75 campers and that the children-campers will be admitted at no charge and will also receive a free meal. She also explained that the program is intended to serve children from 6-12 years.

Councilman Stuart commended the volunteers for their interest in the program.

Councilman Tyska asked to know what is being done to make the HEZ program sustainable with Ms. Spence explaining that the group is working on several sustainability projects including a Rhode Island Foundation grant which may provide \$200,000 for five years. She explained that this amount is less than the existing HEZ grant. She noted that she is also looking for partners who may be able to provide sustainability income also.

Councilman Sweeney suggested that it will be important to secure some Federal funding through Senators Reed and Whitehouse.

Councilwoman Parella asked to know if Ms. Spence is working with the Drug Free Community Grant which may be able to share resources with HEZ. She noted that the RI Department of Health is also looking for funding from the RI Legislature.

Councilwoman Parella also asked to know if the HEZ was lined with COZ with Ms. Spence explaining that there is collaboration.

Councilman Sweeney stated that he is excited about the camp.

Prior to the vote taken, Council Chairman Calouro opened the public hearing.

Speaking in favor of the petition was Gary Sauick of 27 State Street, Warren, who asked to know why there was a public hearing for this matter since there appeared to be no reason for one for past years.

He also noted that the festival will raise funds for the East Bay Food Pantry.

The Clerk noted that the Town Solicitor's Office recommended that there should be a public hearing since the type of expansion requested does not appear to be allowed by the State Statute without one.

Assistant Solicitor Goins noted the controlling state statute and noted that this was not a temporary "seasonal" expansion as allowed by the statute.

2. Michael Mizrahi, for State Street Tavern, LLC, d/b/a Bar 31, 29 State Street - Request for Transfer of Class BV Liquor License to: Elser L. Ramirez, State Street Tavern, LLC, d/b/a Bar 31, 29 State Street (new owner), (see agenda items D2 and D3, Victualling License petition, also)

4. Jessica Liberatos, on behalf of Gerasimos Liberatos, Liberatos Lounge and Restaurant, LLC, d/b/a The Beach House, f/k/a Agave, 805 Hope Street - Request for Amendment to Class BV Existing Licensed Premises to allow New Temporary Seasonal Outdoor Bar within Lower Patio Service Area, April 1 - October 31, **continued from May 2, 2018**
  - a. Petitioner - Revised Plans with Photos

Tyska/Sweeney - Voted unanimously to approve this amendment to the configuration of the licensed premises subject to Council review at a time to coincide with the completion of two months of operation, provided also that the outdoor area shall be used only from April 15 through October 15 in any given year and that the outdoor bar is to contain a maximum number of 16 seats. Said approval is also subject to conformance to all laws and

ordinances and payment of all fees,  
taxes and levies.

Prior to the vote taken, the Ms. Liberatos appeared before the Council and explained that she submitted further amended plans for review. She noted that after reviewing the diagrams as compared to the actual bar furniture, she realized that this bar will accommodate only a maximum of 20 seats. She also noted that the bar structure will be secured whenever the restaurant is not in operation and that it will be double-locked with a drop-down door.

Councilwoman Parella stated that she is concerned about the presence of alcoholic beverages since the area is sheltered from view and not easily patrolled and that it may become a target for unlawful activity when the restaurant is closed. She explained that other downtown facilities have outdoor bars but that these are more visible and less likely to be disturbed at nighttime. She asked to know if the bar could be emptied at night when the restaurant is closed.

Mr. Liberatos stated that it may be possible to do this.

Councilman Stuart stated that he viewed the plans for the structure and is of the opinion that it could be kept secure. He added that his primary concern is for public safety and that he would support the request if the petitioner will have no more than 20 seats at the outdoor bar. He also suggested that approval should be made on a "trial" basis subject to a review period.

Councilwoman Parella stated that she benefitted from the visiting the place to see the actual layout. She noted that prior to her visit she had a very different opinion of the plan.

Councilwoman Parella asked to know if the new bar will have sides with Mr. Liberatos explaining that the bar will have sides that are put in place when the restaurant is closed and that these sides will secure the bar.

Councilwoman Parella suggested that the operation of the outdoor area should be restricted to the warm weather months and expressed concern that the request includes the date of Halloween. She expressed further concern that there may be a plan for an outdoor Halloween party which may be problematic. She stated that she would prefer if the season would end on October 15 rather than October 31.

Ms. Liberatos stated that they do not plan for any outdoor Halloween activities and agreed to close the outdoor area on October 15 as a condition of approval.

Councilman Sweeney stated that he likes the concept and asked for a clarification on the number of bar seats that might be allowed.

Council Chairman Calouro stated that other establishments were allowed only 12 seats and that he is concerned about being even-handed with all applicants.

Council Chairman Calouro suggested that the Council may wish to approve 15 or 16 seats and perhaps consider allowing more in the future if there are no incidents reported after a trial period.

Police Chief Canario stated that he remains concerned about the proposed configuration since the location of the bar is problematic in its proximity to the parking lot and the East Bay Bicycle Path. He noted that the bicycle path is frequented by many elderly persons with children and that he anticipates that there will be complaints coming forward from persons who frequent the bicycle path.

Police Chief Canario noted that the Police Department receives many calls concerning loud noise emanating from establishment which serve alcoholic beverages and that the new large bar will likely exacerbate the problem. He added that he is also concerned about the location of the bar in its proximity to the harbor since people do "strange things" while intoxicated.

Police Chief Canario noted that his department has limited personnel and limited staffing on weekends when the bar will likely be full. He added that he believes that 20 bar seats is too much and asked the Council to try to keep this establishment in line with others that have fewer bar seats.

Police Chief Canario stated that he is in favor of allowing businesses to grow but again stated his concern about this particular location. He asked the Council to consider a trial basis if they choose to approve the petition at all.

Police Chief Canario noted that there have been no specific problems at this location recently but explained that his concern considers that this place may morph into "something else" at some point in the future.

Councilwoman Parella noted that the establishment already serves drinks to patrons at tables in the area. She asked to know if there is a plan to have supervising "hostesses" outdoors.

Ms. Liberatos explained that there will be three hostesses on duty during the summer season and that the area in question is not just a bar but rather that the bar structure is a "focal point" for the outdoor dining area which will also include customers seated at tables. She added that there will be a "full" menu provided to persons seated at the bar and that customers are encouraged to order food while seated at the bar.

Ms. Liberatos stated that she would agree to a limit of 16 bar seats for the trial period.

Economic Development Coordinator Vitale stated that he did a "walkthrough" of the area and that there are now 23 outdoor tables with 92 seats. He added that the new configuration will have half as many seats.

Councilwoman Parella stated that she would prefer if the establishment would keep a good amount of tables with Mr. Liberatos explaining that it is not in his best interest to remove tables.

Councilwoman Parella noted that the floor configuration would be subject to review for safety considerations by the Fire Marshal.

Councilman Stuart agreed that there is a need to have good access for both safety and serving considerations.

Councilman Tyska stated that he agrees that there is a need to have approval on a trial basis.

Police Chief Canario noted that his concern about unruliness and noise are quality of life issues and that his department attempts to keep the Town on an "even keel."

Councilwoman Parella stated that she does not think that more than 20 bar seats would be appropriate with Ms. Liberatos explaining that the bar will not accommodate more than 20 seats.

2. Councilwoman Parella re East Bay Bicycle Path Structures

Parella/Sweeney - Voted unanimously to go on record as opposed to the building of any private structures on the East Bay Bicycle Path property.

Prior to the vote taken, Councilwoman Parella expressed concern that the State may be considering allowing the building of private structures within the right of way comprising the East Bay Bicycle Path. She noted hearing about someone seeking to build a garage on the State property and suggested that this may create a firestorm of requests from residents abutting the path for a broad range of similar structures.

Councilwoman Parella suggested that the Town might make enquiry of the State regarding this proposal and indicate its concern about private use of public property. She noted that she would not necessarily object to abutters planting flowers and shrubs along the path but that anything allows should be easily reversible.

Town Administrator Contente noted that he was aware that someone applied to construct a 12 X 24 foot shed on the path and that this application was provided to the Department of Environmental Management (DEM). He noted that the DEM asked to know if the Town issued a building permit and was told that the Town did not issue a building permit for the structure. Town Administrator

Contente also explained that he spoke to the Director's office and was told that there was some sort of lease between the property owner and that State Department of Transportation and that permission for the structure must come from the State Properties Committee.

Town Administrator Contente noted that this matter must come before the Committee at a meeting and that it may be held on or about June 6 and that he plans to keep track of the agendas for this Committee.

Councilwoman Parella suggested that the Council should go on record as opposed to this type of private use of the Bicycle Path property. She added that she was surprised that the State would consider anything like this proposal.

K. SPECIAL REPORTS

1. Allan Klepper, Barrington Director, Bristol County Water Authority - Monthly Report for May

Sweeney/Stuart - Voted unanimously to receive and place this matter on file.

L. TOWN SOLICITOR

1. Assistant Town Solicitor Goins re Options for Addressing 'Party Houses'

Sweeney/Parella - Voted unanimously to refer this matter to the Police Department for a recommendation of the best option.

Prior to the vote taken, Council Chairman Calouro noted that he asked the Town Solicitor's office to research this matter several weeks ago since there appears to be some "party houses" which are ongoing problems in certain neighborhoods. He noted that the current Town ordinances apparently do not have sufficient "teeth" to result in a remediation of the problem and that there appears to be a need for the Town to enact something new to complement the Town's "tool kit."

Council Chairman Calouro noted that he became aware of the Town of Narragansett's "orange sticker" program that appears to be effective.

Assistant Solicitor Goins reviewed the options outlined in her memorandum including enforcement of the current number of unrelated persons who may reside in a given residence, the current "disorderly house" ordinance which requires the measurement of sound and also the "orange sticker" program described by Council Chairman Calouro.

Councilwoman Parella noted that she is aware of a process in use in the City of Providence where insurance carriers are notified of troublesome residences and the carriers have been known to "put pressure" on the property owners who may fear losing their insurance.

Assistant Solicitor Goins suggested that the insurance option may not be the most effective.

Councilman Stuart stated that he agrees with Council Chairman Calouro about providing the additional "tool" for the "toolbox." He added that he, too, is aware of the party house problem and that the matter needs to be addressed.

Council Chairman Calouro noted that he, Town Administrator Contente and Police Chief Canario visited Roger Williams University regarding the PILOT program and that he would like for the University to participate in finding a solution to the party house problem. He added that any new rules will have to be severe enough to gain the attention of the property owners who condone the bad behavior.

Police Chief Canario stated that he agrees with Council Chairman Calouro and that the Town must take steps to assure that the quality of life is safeguarded for the law-abiding citizens. He noted that the University is responsible for the students' presence in the Town and is also responsible to take steps to make certain that these students do not disturb the peace.

Police Chief Canario noted the action taken to date and stated that he believes that more can be done. He also noted that the University does possess some leverage with the students and suggested that the Town needs to move carefully and methodically to a solution.

Paul Raducha of 636 Wood Street stated that there are problems in his neighborhood with party houses and that the neighbors call the police. He explained that excessive noise is observed through the night and that the video obtained through resident-owned surveillance cameras reveal drug transactions, extreme language and fighting at all hours. He noted that the absentee landlords do not seem to care about what is going on at their property. He suggested that the Town should institute some regulations that punish homeowners for their unruly tenants.

Mr. Raducha explained that he has experienced these same problems for over eight years and that the absentee landlords do not care about the goings-on at their properties. He expressed concern that the students appear to have no respect for their neighbor's peace and that he is concerned about the future as a taxpayer.

Mr. Raducha suggested that the Council should impose some punitive action against the landlords since the landlords are contributing to the problem via their inaction.

Mr. Raducha stated that he may have no other choice but to move away.

Councilman Stuart asked to know if the Town might impose a "booting" system for illegally parked automobiles with Mr. Raducha responding that the students' automobiles have been towed many times and that they simply pay the tow charge. He added that the towing does not seem to rectify the poor behavior.

Police Chief Canario stated that the problems described by Mr. Raducha are not due to a lack of enforcement but rather that the problems are difficult to penetrate.

John Desautel of 638 Wood Street informed the Council that he agrees with everything stated by Mr. Raducha. He suggested that the Town might look to the City of Newport for some guidance as to their methodology for dealing with similar situations with absentee landlords. He noted that the Newport regulations appear to be very effective.

Police Chief Canario agreed to speak to both Newport and Narragansett.

Councilwoman Parella noted that the Town must take action to assure that these absentee landlords "get the message."
